

Category FAQ For Magento 2

User Guide

The FAQ page is an essential part of any eCommerce site, and with the support of our Magento 2 Category FAQs extension, you can complete an FAQ page of your own to suit any of your business objectives.

This extension allows the building of an instructive and even SEO-friendly FAQ page to address standard questions for the shoppers. The shoppers that come to your store can discover it much more conveniently when they reach your Magento 2 store.

Your shoppers may have some standard queries or questions about the extensions and services you deliver. And then you feel exhausted from delivering the answers to identical questions again and again to each query obtained. You must be considering how to answer all those standard queries without any annoyance and endeavor.
