

#### **Notification Bar For Magento 2**

#### **User Guide**

Our Magento 2 notification bar tempts your customers by our showing the highlighted offers. Store/ business owners can highlight the sale and best offers for the specific customer group. This grabs the customer's attention to the special deals thereby increasing conversion rate and upshots sales. Notification bars are the best options for attractive and healthy promotions of special deals, news, new launches, best sellers, and a lot more.

### **Features**

- Admin can enable/ disable the extension module.
- Multiple notification bars.
- Highlights the deals.
- Upshot sale.
- Attractive conversion rate.
- Easy configuration and customization.
- Responsive design.
- Custom names for each notification bar.
- Display notification bar based on customer group.
- Display on all pages or selected pages.
- Display notification bar for the specific period.
- Customize the position of the notification bar.
- Customize the height of the notification bar based on pixels.
- Display notification bar based on priority.
- Select multiple store views to display the notification bar.
- Customized each notification bar's background color, font style, size, etc.

### **Installation Details**

- $\gg$  Download the zip file
- Extract it and put into <Magento-Directory>/app/code/
- >> Open CLI in Magento directory and Run Magento installation commands

## **CLI Commands**

- → php bin/magento setup:upgrade
- → php bin/magento setup:di:compile
- → php bin/magento setup:static-content:deploy
- → php bin/magento indexer:reindex
- → php bin/magento cache:flush

# **Configuration And Customization**

→ Configuration Login to the Admin Magento,
 Stores > configuration > VDCSTORE> Notification Bar
