

# Shipping Per Customer Group Extension For Magento 2

## User Guide

Shipping Per Customer Group extension for Magento 2 permits business/ store owners to offer custom shipping rates per customer group. It helps improve purchase experiences while polishing the checkout process for customers. Business/ store owners can charge higher shipping rates for not-logged in customers while low rates for registered ones. These extra privileges nurture the existing customers.

## Features

- Choice to set your shipping title and method name.
- Set default shipping cost for all if no customer groups are assigned any charges.
- Different shipping costs based on customer groups.
- Assign different shipping charges to different customer groups.
- Select specific countries or select all for this shipping method.

## Installation Details

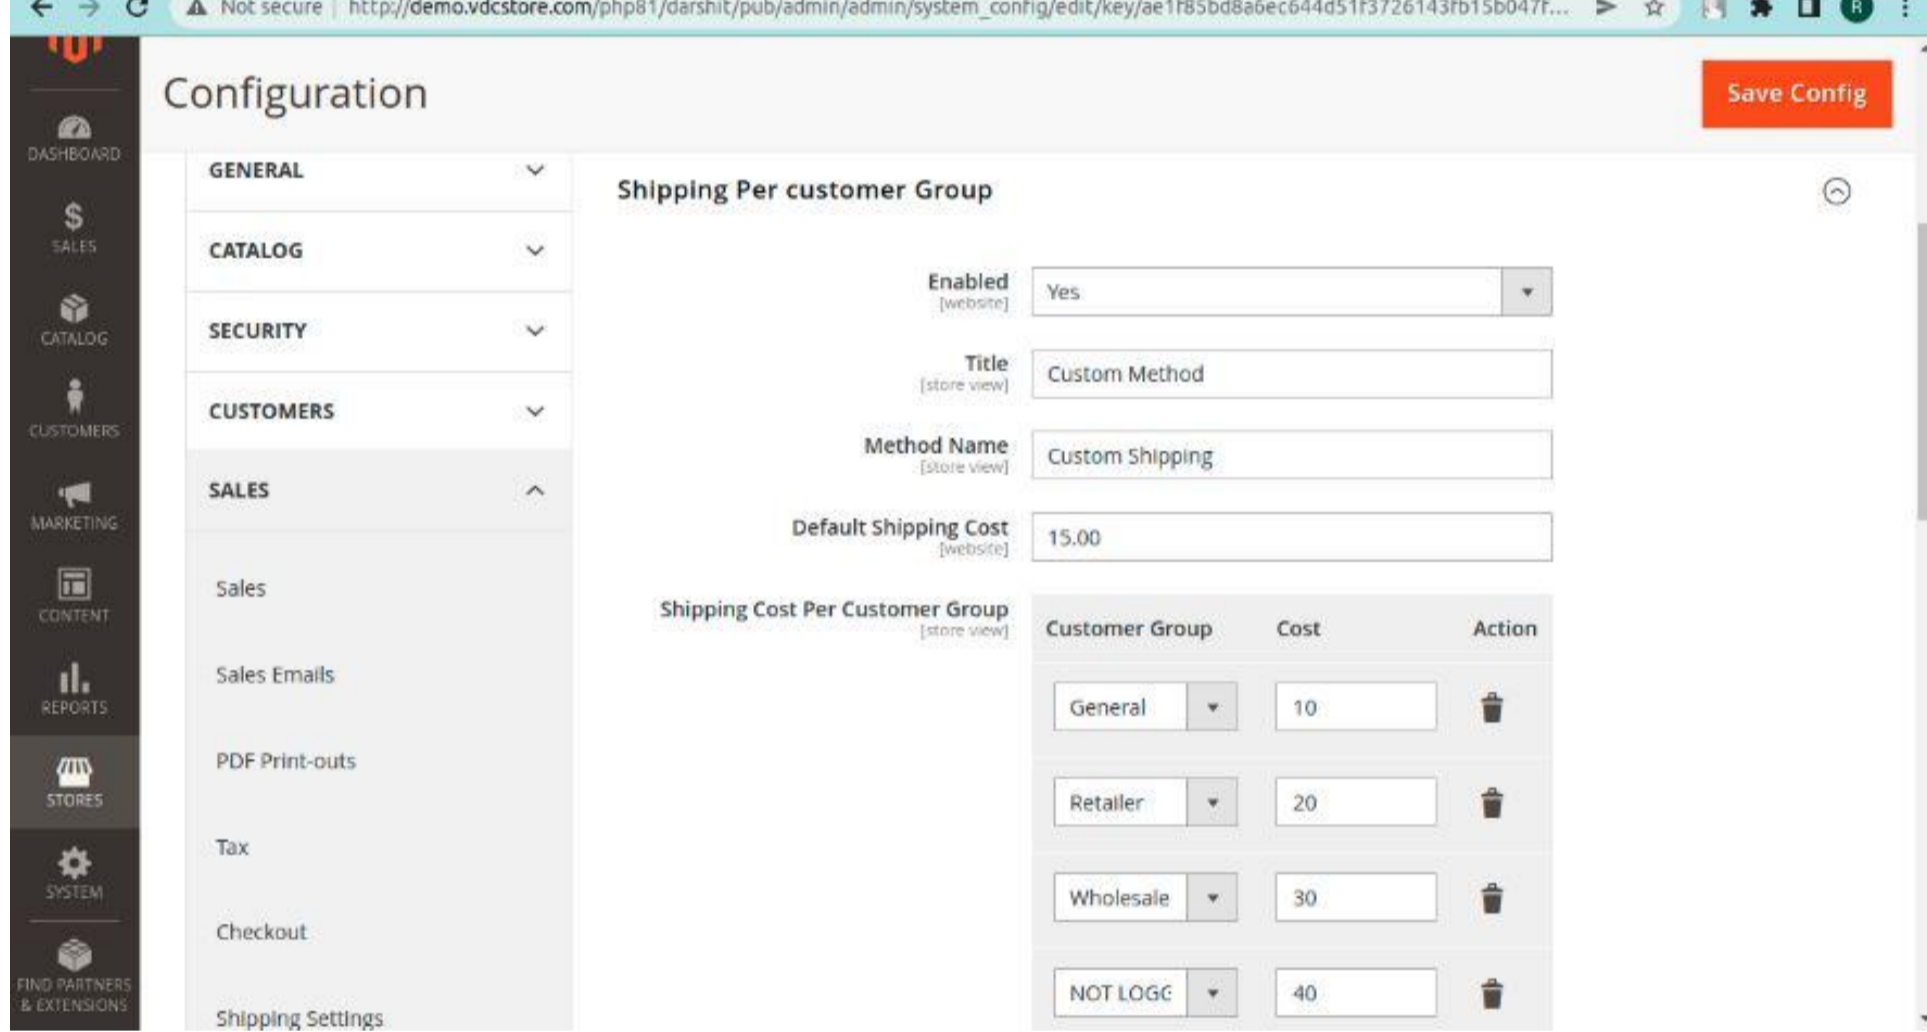

- Download the zip file
- Extract it and put into <Magento-Directory>/app/code/
