

WhatsApp Share For Magento 2

User Guide

Our magento 2 WhatsApp share module enables the users to share a particular product with all the detailed information and links on the WhatsApp application. This ensures a better customer experience. Additionally, keeps your store competitive and trendy.

Features

- Admin can enable/ disable the module.
- Share products anywhere anytime through the WhatsApp application.
- Share a particular product with a particular person.
- Share detailed product information.
- Sharing through WhatsApp web and mobile WhatsApp app.
- Responsive design.
- Three icon size options to choose from.
- Personalized default sharing message for WhatsApp share.

Benefits

- → The business/ online stores need to stay updated with the current trends and provide their customers with all the competitive options.
- → WhatsApp is the most prominent app these days. It has a huge user base. So WhatsApp share option keeps your business highlighted. This adds the benefit of being a go-to option for WhatsApp users.
- → You can use your business-specific or desired sharing message as default for WhatsApp share.
- → This would be more easy, quick, and more convenient for visitors to share products with other people.
- → The sharing message would include your tailored default message followed by other details like the name, price, and link of the product.
- → This option builds more comfort for customers and ensures a smooth experience.
- → Visitors can easily share it anywhere, anytime on the web through WhatsApp web, and from mobile through WhatsApp mobile application.

Installation Details

- \gg Download the zip file
- Extract it and put into <Magento-Directory>/app/code/
- >> Open CLI in Magento directory and Run Magento installation commands

CLI Commands

- → php bin/magento setup:upgrade
- → php bin/magento setup:di:compile
